DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Paas. Note Figure 1 showing EGR cooler (18) with water injection system (30) and column 7, lines 26-65.

Allowable Subject Matter

Claims 2-20 and 25-41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 21-23 are allowed.

Art Unit: 3747

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references of Gartner et al, Sato et al, Khair, Ichikawa and Takakura are cited to show EGR coolers with cleaning features.
